2.6.3.1 - Extension (critical): Qualifiers [QCStatement, QCForESig, QCQSCDStatusAsInCert]

Qualifier type description [en]

it is ensured by the CSP and controlled (supervision model) or audited (accreditation model) by the Member State (respectively its Supervisory Body or Accreditation Body) that all certificates issued under the service (CA/QC) identified in 'Service digital identity' and further identified by the above (filters) information used to further identify under the 'Sdi' identified trust service that precise set of certificates for which this additional information is required with regard to the issuance of such certificates is issued as a Qualified Certificate.
