Description

The service aims to deliver an eIDAS qualified electronic certificate for natural persons via the Certification Authority "Sunnystamp Natural Persons CA" to a Signatory during a signature transaction implemented by an electronic signature book application. These certificates are issued in compliance with the ETSI EN 319 411-2 standard at the QCP-n-qscd level, following an authentication of the Signatory via an electronic identification means: - That has been notified by one of the member states of the European Union; and - That has a substantial or high level of assurance; and - For which there is published documentation in English or French language allowing to establish, unambiguously, that the presence of the natural person or an authorized representative of the legal person is a prerequisite for obtaining this electronic identification means. In other words, these qualified certificates are issued in accordance with Article 24, paragraph 1, subparagraph b, of the eIDAS regulation. A given certificate has a lifespan limited to 1 (one) hour and is used in the context of a single document signature transaction. The key pair is generated at the beginning of the transaction and is destroyed as soon as the transaction is finished. It is generated on qualified QSCD HSMs that are listed on the appropriate European list.

27.8 - Service (granted): Lex Persona eIDAS qualified timestamp - UH1 - 1.3.6.1.4.1.22542.100.2.1

Policy Identifier:		
Identifier		1.3.6.1.4.1.58753.2.1.1.1.2.2
Description		DATASURE issues electronic seals named DATASURE CA - eIDAS Qualified Enterprise Seal, signed by its Certification Authority DATASURE Global CA. It consists in X509 software-based certificate with QCP-I profile, compliance and certified under ETSI 319411-2.
Description		DATASURE CA - eIDAS Qualified Enterprise Seal

33.6 - Service (granted): DATASURE TSA01 - 1.3.6.1.4.1.58753.1.1.1.1

Service Type Identifier	<i>http://uri.etsi.org/TrstSvc/Svctype/TSA/QTST</i>	
Service type description	[en]	<i>A time-stamping generation service creating and signing qualified time-stamps tokens.</i>
	[fr]	<i>Un service de génération horodatage création et la signature temps timbres jetons qualifiés.</i>
